Platt College Placement Methodology

ACCSC: EMPLOYMENT RATE: The school's official rate of graduate job attainment for each cohort and for the program for the reporting period is the number of graduates employed in field divided by the number of available graduates. Graduates can be determined unavailable for employment for the following reasons; continuing education, death, incarceration, active military service deployment, the onset of a medical condition that prevents employment, or international students who have returned to their country of origin.

BPPE: "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates, beginning within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment shall begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education at an accredited or bureau-approved postsecondary institution
